

DC - DC CONVERTER

SDC-Series

Step Up Switching Mode DC-DC Converter

SDC - 310

Description

This series of DC-DC Switching Mode Converters are built to meet the high current applications at 28V DC. In addition to the high efficiency, the low profile construction makes use of the heat sinks as main body of the robust, rugged housing of the unit. The OVP (Over Voltage Protection) protects sensitive electronic equipment.

Features

- High efficiency 88%
- High power density
- Output over voltage protection
- Short circuit and overload protection
- LED power on indicator
- EMC INTERFERENCE IMMUNITY
- Power ON - OFF Switch
